

Islandaire EZ Series AD is a replacement for the Friedrich Climate Master and Weil-McLain models of 700AD units. Our commercial duty construction with heavy gauge galvanized steel and superior components create an efficient reliable unit. This design eliminates the need for any interior or exterior renovation. Use of the existing wall sleeve-cabinet and louver saves time and money, two very important factors in today's competitive environment! If the need does occur where the room cabinet needs to be replaced, we manufacture them, as well as a square or rectangle control box.
